M.Math  
Quantitative Research Intern

[yulan.lu@bodhiresearchgroup.com](mailto:yulan.lu@bodhiresearchgroup.com)

Yulan Lu completed her undergraduate degree from the Ohio State University, double majored in Mathematics and Economics. Currently, Ms. Lu is a second-year master student at the University of Chicago Financial Mathematics program.

During Ms. Lu's undergraduate study, she took quantitative-oriented courses as well as economics classes spanning across math, statistics, and econometrics, exposing her to a broad background where she developed her modelling and quantitative analysis skills.

During the pursuit of her degree, she enhanced her knowledge in programming, time series analysis, and financial topics such as fixed income, foreign exchange, corporate finance and portfolio management. In addition, Ms. Lu has joined previous Project Lab Experiences. This summer, once again, Ms. Lu joined Project Lab with CME Group sharpening her data analysis skills by processing data and doing event-related analysis. She processed data with Python; implementing models to find market premium, create charts and graphs thus visualizing the results.

Aside from Ms. Lu's technical expertise, she possesses excellent written and verbal communication skills. During her undergraduate, Ms. Lu worked as math teacher assistant and tutor. Currently, she is a mentor for UChicago Women in Economics and the Equity, Diversity, Inclusion Peer Mentoring Program. As a mentor, she shares her experience with peers, assisting them with their adaptation to school.
