

## JORDAN SACKS

M.Math

Quantitative Research Intern

[jordan.sacks@bodhiresearchgroup.com](mailto:jordan.sacks@bodhiresearchgroup.com)

Jordan Sacks is currently enrolled in the Master of Science in Financial Mathematics at the University of Chicago. Jordan graduated from University of Virginia with a Bachelor's degree in Systems Engineering.

His studies include portfolio theory, credit risk modeling, probability and stochastic processes, and option pricing. Jordan is also a participant in the International Association of Quantitative Finance student competition where his team is forecasting consumer gasoline prices and carbon dioxide levels based on oil futures.

Prior to starting the master's program, Jordan was a Lead Technologist at Booz Allen Hamilton where he provided data science and decision analytics to federal agencies. Primarily, he worked with the asset management divisions of the National Park Service and the US Courts to assist with capital allocation strategies, predictive maintenance, and data integration. Jordan has a proven track record of deploying data management strategies, developing performance metric dashboards, managing a team to deliver above expectations, and building client relationships.

Jordan is also actively involved in the Union League Boys and Girls Clubs (ULBGC) that support young members across Chicago with after school programming. Leveraging his analytics and data visualization skills, he built dashboards and data management strategies to aid the Program Committee with evaluating the success of club programs. He is also the Co-Chair of the Associate Board's Marketing and Communications Subcommittee, which is responsible for providing fundraising events for the ULBGC. While at the University of Virginia, Jordan was a member of the varsity Men's Swimming & Diving Team with accolades including a 12th place finish on both 3-meter springboard, and platform at ACC Diving Championships.
