

HUIQIAN MA

Quantitative Research Intern

huiqian.ma@bodhiresearchgroup.com

Huiqian Ma is currently enrolled in the Master of Science in Financial Mathematics at the University of Chicago. She graduated from University of Richmond with double majors of mathematics and accounting.

In her experience, Huiqian had her internship at BDO, an accounting firm, working on a project of Beijing Drainage Group, calculating the civil tap water price.

In this project, Huiqian independently built a water price calculation model, successfully merged the operating costs of 12 water plants, and calculated the final general water price. During the data cleaning process, she used excel VBA language to improve the data update process of periodic adjusted costs reports from her co-workers, achieved the purpose of one-click calculation, and update all data.

During Huiqian's internship in the CITIC group, she completed the bond financing proposal for the Yankuang Group, including a comparative analysis of private placement public bonds, corporate bonds, medium notes, short-term financing, PPN Advantages, and a distribution plan.

In Huiqian's spare time, she likes to swim and spend time in the kitchen with new recipes.
