

DR. MIKE PALMER

Head of Analytics & Research
Hiscox

Speaker

Michael Palmer joined the Catastrophe Modelling Team at Hiscox in June 2005 having previously gained a PhD in Atmospheric Physics from the University of Oxford and subsequently worked as a research scientist investigating climate change.

In his career at Hiscox he has had worked with both direct insurance underwriters and with the reinsurance team. In 2009 he took the role of Catastrophe Research Manager before moving to Bermuda in April 2012 where he lead the Analytics and Research Team for Hiscox Re and ILS, before returning to London in 2022. Since that time he has grown the team to include both Catastrophe and Actuarial Analytics, and became a Hiscox Partner in 2019.
