

## OLEG MOGILNY

Former Head of Public Market  
Alternatives  
IMCO

Speaker

Oleg Mogilny has 20+ years of investment experience in managing active absolute return and equity strategies. He was until recently the Head of Public Market Alternatives at Investment Management Corporation of Ontario (IMCO) where he managed the absolute return portfolio that included diversifying hedge fund strategies (macro, CTA, active commodities, fixed income, equity and credit relative value) as well as specialized private strategies (healthcare royalties, natural resources, opportunistic special situations, and insurance linked securities). He also led the build-out of quantitative strategies and equity portfolio construction.

Prior to his role at IMCO, Oleg was the Head of Quantitative Strategies and Research at Ontario Teachers' Pension Plan (OTPP), where he led systematic cross-asset / macro strategies and quantitative equity investing. Over his 16-year tenure at OTPP, Oleg was a portfolio manager at Tactical Asset Allocation group and the Head of Equity Portfolio Strategy team. Oleg earned his MBA degree from McGill University and a Master's degree in Economics from EERC / Kyiv School of Economics. He is a CFA charterholder.
